DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12, drawn to apparatus for filtering detected channels, classified in class 455, subclass 67.11, 179.1, 336.
 - II. Claims 13-19, drawn to apparatus/method for selecting channels in a multi-transceiver network, classified in class 455, subclasses 553, 133.
 - III. Claims 20-29, drawn to a method for selecting a RF range, classified in class 455, subclasses 161.1, 176.1, 180.1.
 - IV. Claims 30-35, drawn to a method of configuring the communication device to use one of the available frequency sub-bands, classified in class 455, subclasses 188.1.
 - V. Claims 36-42, drawn to a bandpass filter in details, classified in class 455, subclass 339.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III, IV and V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a plurality of transceivers select different frequency channels for each one, invention III has separate utility such as each of plurality of receivers determines

available RF range, invention IV has separate utility such as determining available frequency sub-band and configuring to use, and invention V has separate utility such as an RF filter mechanism. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, III, IV, V, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Simon Nguyen whose telephone number is (571) 272-7894. The examiner can normally be reached on Monday-Friday from 7:00 AM to 4:00PM.
